A. LANGE & SOHNE

The Lange Zeitwerk is the world's first mechanical wristwatch that displays hours and minutes with jumping numerals. Its trailblazing design expresses the totally new concept. The time bridge is one of the most prominent design elements of its dial.

ULYSSE NARDIN

Ulysse Nardin has unveiled two new bespoke watches called Ulysse Nardin Freak Vision Coral Bay. They feature a special finish, involving an acrylic painting and gold wire bonding to turn the dial of these watches into a visual spectacle.

AUDEMARSPIGUET

Designed for the independent women of today, Audemars Piguet has launched the Ladies Royal Oak Offshore Collection. With its assertive style and distinctive lines, the collection displays sophistication and energetic femininity of the modern woman.

FREDERIQUE CONSTANT

Federique Constant presents a redesigned Classic Worldtimer Manufacture in a new green colour. A world map is etched on the dial and the twenty-four cities are placed on its outer rim. Telling time on this timepiece will make keeping time a relaxing experience.

GOS

The renowned Swedish luxury watch brand, GoS, has recently introduced the Sarek Midnight Blue at Basel World 2018. GoS in its venture to draw inspiration from nature has proudly created another timepiece which is both stylish and elegant.
