1931 CADILLAC V-16 LAUCHER IN LONDON

Sotheby's London is all set to auction the 1931 Cadillac V-16 Sport Phaeton. In 1930 the Maharaja of Tikari, Gopal Saran Narain Singh, made the decision to order a V-16 Cadillac, placing the order from Bombay. Only 75 examples of the design were produced; this was the only export model produced on a right-hand-drive chassis. It was reportedly the 152nd automobile in his royal garage. To a British enthusiast, any Cadillac V-16 is a rare, exotic and seldom-seen sight – but the opportunity to acquire one with factory right-hand drive, and such a significant and magnificent complete history, represents a truly unique moment.
