VAN CLEEF & ARPELS
SECRET DE COCCINELLE

This secret watch won the JEWELLERY WATCH PRIZE. Well, the immense popularity of secret watches is no secret! This enchanting timepiece is a jewel in itself. It uses exceptional diamonds and colourful precious stones to create a sense of surprise and wonder. Paying homage to the theme of nature dear to Van Cleef & Arpels, the Secret de Coccinelle watch tells the tale of a ladybird in Mystery Set rubies graciously walking on a leaf. Tsavorite garnets and emeralds combine their various green hues to depict the rich colors of nature. Thanks to a sliding invisible mechanism specially conceived for this watch, the ladybird hides or reveals the dial by slightly moving along the leaf. When viewed from the side, the piece appears light and delicate and the watch case cannot be seen. This is one secret we'd love to keep!

Laurent Ferrier

LAURENT FERRIER
GALET ANNUAL CALENDAR SCHOOL PIECE

This watch won the MEN'S COMPLICATION PRIZE. Made entirely in-house, the watch features a very useful and handy complication. The movement combines a very convenient and user-friendly functionality with pure design. The focus is on optimal visibility as well as extremely smooth handling. Visual balance, readability and accurate performance are key features of the watch. The red gold case and the grey slate dial combine to exude their own visual charm as well.
